

**Does your child receive special education services at Yinghua?  
Would you like to meet and talk with other parents in similar situations?  
Do you have ideas that might benefit our school and community?**

**The Yinghua SEAC (Special Education Advisory Council)**  
is a group of parents and staff whose mission is to increase the involvement of parents of children receiving special education services in school-wide policy and decision making.

In addition to the SEAC meeting, we hold an open forum for parents whose children receive special education services to come discuss their experiences and concerns with other parents in a casual, relaxed format.

These ideas will be brought to the SEAC meeting to be considered as part of school-wide policy and decision making.
