

YINGHUA ACADEMY OPEN ENROLLMENT PERIOD FOR 2013-14 ACADEMIC YEAR

Lottery Results

February 7, 2013

Minnesota statute requires that charter schools admit every applicant if there is capacity in the desired grade as set by the charter school board. If there is not capacity in a particular grade, the applicant goes onto a wait list in the order in which their name was drawn in the lottery. If an applicant is on a wait list, sibling preference doesn't apply. Sibling preference will only apply when an applicant is admitted.

At the lottery event on February 6, younger sibling applicants were intentionally removed from the lottery and assigned to the top of the list for their grade, based on sibling preference, when an older sibling's name was drawn and that older sibling was wait-listed. Regrettably, as clarified above, this was not correct procedure. The younger sibling(s) should have only been removed from the lottery if the older sibling had been accepted to that higher grade. When there is not capacity in the higher grade, and the older sibling is only waitlisted, the younger sibling(s) should have remained in the lottery.

Fourteen on-time applicants were left out of the original lottery due to this error. To correct the error, a random drawing was held on the morning of February 7 to provide a random placement for those students, which may result in your child being listed at a slightly different number than you recorded if you attended the lottery in person

This list supersedes the number order that was handwritten on the evening of the lottery event (February 6).
