1-1:30	***Water games: class volunteers/parents lead games. See water games packet for ideas or check out youtube. We prefer no water balloons (not environmentally safe). If you do decide to use balloons you must clean up and they cannot be thrown at someone (as in trying to hit them-not heart safe or body safe).				
1:30-2:00	You can continue water games, other field games or head inside				
2:00	Clean up: PE Department, specialist teachers and parent volunteers				

***Activity: teacher or parents organize it. We recommend a country theme activity for the non-water time.

Classroom coordinators: 1-organize country outfit. 2-Help teacher with water game activities and country activity. 3-Organize who can bring in a wagon... 4- Buy one home depot bucket, 2-3 water spray bottles and sponges (if doing a sponge activity)
