CKC Good Food is Yinghua’s new school lunch caterer. The fee for 2019-20 school lunch is $4.10 per meal including milk—just 15 cents more than in 2018-19. Milk alone is 50 cents per carton. The first menu of the year is on the reverse side of this sheet.

Nuts and peanuts: Yinghua school lunches do not include nuts or peanuts. However, in their facility, CKC Good Food does prepare other clients’ orders containing these ingredients. Please consider this when deciding whether to order Yinghua school lunch. Contact school nurse Ginger Hao (ginger.hao@yinghuaacademy.org) with allergy management questions.

To order lunch and milk, Yinghua families use an online system called Boonli, which accepts payment with no processing fee via Visa, MasterCard, Discover, and American Express.

All Yinghua families should have a Boonli account. Even if you do not plan to order school lunch, we ask you to set up an account. This is because Yinghua uses Boonli for “emergency meal” charges on the rare days when students forget to bring home lunch and we are not able to reach a parent or guardian to drop off a lunch at school.

If you believe you may qualify for free or reduced price meals, before creating a Boonli account, complete the Application for Educational Benefits (AEB). In approximately seven days the school will mail you a letter confirming that your AEB has been processed. Contact helen.hindrawati@yinghuaacademy.org if you do not receive your letter. Create your Boonli account after your AEB is processed.

Setting up your Boonli account

1. Go to https://yinghua.boonli.com/login. Click “Create an Account.” Then click “First time users click here to create an account.”
2. Enter YA1 in the PASSWORD box, check the box to confirm you are not a robot, and hit NEXT.
3. Fill in the boxes to register a new account. Check the box next to “I will be ordering for other people.”
4. Add the name and grade of the students for whom you will order lunch at Yinghua. Use the “Location” box to select the grade. Use first and last names exactly as they appear in Infinite Campus records at Yinghua—NO NICKNAMES.
5. Read “Program Info.”
6. Ordering lunch? Select the “month” bar. Click “the dates” on the calendar to begin ordering. Complete the checkout process. Do not close your browser prior to receiving the confirmation, or your order may not process fully. Orders left in the shopping cart will NOT be processed, and if needed, the emergency meal fee will apply. Not ordering lunch? You do not need to do anything further.

Payment processing

1. Carefully check what you have ordered by selecting “View/Print Orders” under the month, or view your order history by using the upper left menu. Confirm that you have placed a food order on all of the days when your child will eat lunch at school.
2. Proceed to the checkout to process your payment.
3. Changes or additions: After the system records your payment, if the ordering period is still open, you will be able to make changes and place additional orders.

If you have questions or concerns about ordering, menus, the Application for Educational Benefits, or the Confidentiality Waiver, please contact Yinghua Food Service Coordinator Helen Hindrawati at (612) 788-9095 or helen.hindrawati@yinghuaacademy.org.
